" COME OFF THE FENCE.

Some Lessons We Learnt From

South Africa.

Home affairs supply material for

We have been doing all sorts of things

since we" came here nine-sweeping. patrolling, and mine-laying, the latter

much the most hazardous; in fact, we had

a lucky and mirsculous escape once or

twice. Then we do a bit of humbarding.

The troops have done great work, so have

the smaller ships and some of the larger;

but the accounts in the papers are rather

raisleading. For one thing, the, "Big

her reputation overshadows other ships

that have done grand work. The sooner

people at home realise that they can't sit ! on the fence and sing " Rule Pritarinia"

but nothing short of a German army in

London would wake some of them up to a

sense of their duty. Then the questions

of aliens and munitions. We ought to

have had a lesson from South Africa.

That was only a flea-bite to this, but it

was serious enough for us at the time.

and we added the " Recessional " to the

hymn-book and sang it with gusto; but

did we forget? I rather think so. God

the German's diagrace. We require no

Hymn of Hate, and the poet isn't born

who could adequately write one; but

there's something singing inside us, and

if it could only find words and music

String it would make the Huns turn

THE GUNS OF FLANDERS.

On still nights, said Mr. Lloyd George

at the Eistedfod last month, it is pos-

sible to hear the guns in Flanders from

his Surrey cottage at Walton Heath. A

correspondent writes to say that at South-

end, too, the cannon may be heard like

dar-off thunder on quiet nights when there

is no wind, or only a wind blowing land-

wards. Water, it is well known, is a

wonderful sound conductor; naval battles

can be heard at sea from very far off

It was reported in"" The Daily Mail" in

January that an artillery duel in Alsace

was heard in St. Gall, Switzerland, a

hundred miles away. A similar pheno-

menon was observed in 1870, when firing

in Alexce-Lorrsine was heard in the heart

of the Alps. That guns on the Continent

were heard in England was first told some

months ago in "The Daily Mail." In

this instance they were heard at Broad-

Dunkirk is eighty miles, from Broadstairs

WHO'S WHO IN JAPAN HOPEED AND PUBLISHED BY S. KURITA.

The first (1913 edition is already tasted, TO IUGRAPHIES of ever 5,000 people D who are well-known in society and of several hundred foreigners associated with Japan appear in the book. Quite new materials and accurate sketches, both being utterly free from prejudices.

Many portraits are inserted. The book contains over 1,400 pages. The price is yen 6 (12/-) or \$3 per copy. Orders for the book should be accompanied

Subscribers for the second annual edition of 'Who's Who in Japan' will be allowed a reduction of one year.

The registered postage is 18 sen, to Korea and China 40 sen and to Europe & America IT IS A GOOD ADVERTISES MEDIUM.

Many influential papers of the world noticed this work in the highest terms. For example, The Daily Mail says:-

Yet snother "Who's Who!" and this time from Japan ! The reader is apt at first to regard it as a opriority, as a sign that the East has now become Western practically almost to the last detail. But Who's Who In Japan' is far more than a coriceity ; it is a very sound and useful eference book. It is printed in English and contains brief biographies, on the Mr Surita is a skilful editor and has done his work well.

# A Natural Remedy

Time was when disease was thought to be due to the direct influence of evil spirits, and exorcism and magic were invoked to cast it out.

Science has taught us wisdom. The evil spirits exist still. We call them "Disease Germs," and they also must be cast out. lodged in the stomach or intestines, fever with its ballucinations, or biliousness with its aches and mins, is the result.

# ENOS

is the approved remedy for driving out disease germs. Its action is quick and thorough. It clears the intestines, rouses the torpid liver to new life, stimulates the mucous membrane to a healthy action, and cleanses and invigorates the whole digestive tract.

It may be safely taken at any time by young

It is very effective in the early stage of Diarrhoea by removing the irritating cause.

Be prepared for emergencies by always keeping a bottle in the house.

thrown as far as the officers wished to throw them: . I delivered 100 to the Government for experimental purposes. A few of these have been tested, and it was found that the fire should be greated, ad farther hway, so I have designed a very much simpler and larger form. The firm in London who propose to make them have designed a.mschine for throwing them with accuracy a distance of 300 yards, which will be quite enough. By this means a fire of any aire may be produced, and if the fire is large enough the gas must be dissipated;

t cannot be otherwise. The first bombs I designed involved the use of petrol, but it was thought that the consumption would be so large that there might be a shortage. I have therefore been experimenting, and am now in possession of a liquid that does just as wal and only costs half as much, while the

PEA-NUIS AS CATTLE FOOD.

Interesting Experiment by Imperi 1 Institute.

The despised monkey-nut is coming into its own. The high price of feeding stuffs for cattle has led to the discovery that it is a aubstitute for higher priced foods, and one of the results of the war should be its permanent, establishment as a product much agricultural and commercial value.

The monkey-nut, which is more properly called the ground or pes-nut, is obtainable in large quantities at home from India. China and Africa, and is being produced on a steadily intressing scale in the tropical Cushy " exclaimed Bill, flicking the parts of the British Empire. Before the ash from his eigereste with the tip of his war both France and Germany imported large quantities, the nuts being crushed for oil, and the residue being converted

In England the use of this nut has been chisfly confined to the chesper kinds of confectionery, in place of the more SEPTEMBER 2578, 1915 at 9.0 P.M. expensive almonds. The nuts; however are now being crushed on a small scale the United Kingdom, and "ground nut" cake of British manufacture for cattle will be on the market shortly. This experi mental introduction is being patented by he Imperial Institute, South Kennington who will gladly supply intending many facturers and farmers with details.

AUSTRALIAN POLITICS.

Partisan Controversy.

blajesty's Supreme Court for thing were nodding acquaintance with either. I am well as the stink of the cheese, there's tone of the Commonwealth go to the Band and Omisstra of the probibited from doing certain things cave more or less afraid of them; but they don't the dug-outs with the min-comin, in. Parliament, and about the violent pertian H.K.P.R. strike terror into me. But once, it was and the mack falling into yer tes, the controversy at the time when such matters. Hongkor them so to do AND WHEREAS by when we were in the trenches at X, I was werning the bloke a blok perspraph XI of the aforesaid King's sentry on the parapet shout one in the late year good the year good the late year good the late year good the late year good the late year good the year Regulations it is provided that nothing in morning. ### ALLEGED THEFT ELECTRICITY

Won Kwai, trading as Kwai Ewong at 12 Elgin Street, was charged before Mr Lindself at the Magistracy this aftern on with having, at 34 Hollywood Read, between August S' and September 3. directed and consumed electricity of the Hongkong Electric Company, Ltd., to the approximate value of \$10.

Mr Preston pros cut.d. Mr A. H. Crew appearing for the defendant.

Mr Crew said his Worship had acceded to the request for a new bearing, and he took it the case would be heard absolutely de noto.

Air Lindsell said he did not think that course was necessary Mr Crew could put certain witho see in the box and sak any que tions.

Mr Crow said he was prepared to admit that certain additions were made which ware not reported, hut he p'exded not guilty to the charge of stealing current...

Mr V. Sorby, Mains Superintendent, gave evidence on the method of fixing wires and maters. The mater would never register from the installation. There was nesting connected with the meter except the new install tion. There was no sttempt at concealment. The meter-man went along and heard a lan going, and seeing that the meter was not registering anything, made inquiries.

Mr. Praston. - Mr. Crow has made rather a point about it being impossible to defraid the company under the new system of wiring, but this is the old system,

Mr rew said the prosecution had to prove that the work was done maliciously or fraudulently. He was prepared to prove that the firm of which defendant was a member were paid \$ for this work. The person by whom the work was done hid very little experience and thought he could do the wiring anywhere. He never thought he was doing anything improper. The presecution made no accusation against the tenant, and there only remained the defendant. What his motives could have been for stealing electricity for the benefit of someone else's pocket he did not know. The wiring was done quite openly. If any collusion was alleged between the defendant and the tenant the latter ought to be charged with conspiracy.

did the work. The case was remanded till Thursday for an inspection of the premises.

Defendant in the box, said a foki of his

"OUR LADY OF THE TRENCHES:

FRONT.

Damp Excursion to a Mine Crater.

We were sitting in the garden of General's headquarters, having a picuic meal before going into the trenches. spite of the wasps, which attacked sandwiches, it was a nice, quiet place in time of war. No shell came crashing our neighbourhood (though we were wel within range of the enemy's gunsh, and the loudest mise was the drop of an ever-ripe apple in the orchard. Later on a shri whistle signalled a hostile semplane overhead, but it passed without throwing

"You will have a moist time in som of the tranches," said the General. "T rain has made them tather damp. But you must get down as far as, the mi craters We're expecting the Germans to fire one at any moment, and some of our tronches are only six yards away from the

enemy. It's an interesting place." The interest of it seemed to me, writes most too much of a good thing. Between two bites of a sandwich I uttered a pious prayer that the enemy would not explode his beastly mine under me. It makes such a mess of a man, \_\_\_\_\_\_

DANGER-OF WET FEET. A staff captain came out with a report, which he read : "The sound of picks has been heard close to our sap head. The

a few hours.

"That's the place I was telling you about," said the General. "It's well worth a visit. . . But you must make up your mind to get your feet wet." As long as I could keep my head dry and brave the perils of wet feet with any man. It had been raining rather heavily for a very glum when their clothes have been Red slugs crawled up the sides of the West Points at 872, and Kowloon Lands women have tucked their skirts up and shown their pretty ankles. " (These things used to happen in the far-off days of peace.) But in the trenches, those that lie low. rain means something very different, and hideously uncomfortable for men who in holes. Our soldiers, who have been cursing this min lately—as in the old days.

tuck their clothes up above their ankles. They take off their trousers. PADDLING THROUGH,

"they swear terribly in Flanders"-do not

There was something very Indicrous in the sight of those befty men coming back through the communication trenches with the tails of their shirts flapping above their barg less which were plastered with a yellowish mud. Shouldering their rifles their ap des they trudged on grimly through two feet of water, and the boots which they wors without socks squelched at every stop with a loud sucking noise - "like a German drinking soup," said an officer who preceded

"Why errouse?" he said presently. 'It's better than Brighton !"

It was a queer experience, this paddling through the long communication trenches which wound in and out like the Hampton Court maze towards the front line, and the mino crate s which made a salient to our right. Every now and then shells came 891 whining overhead and somewhere behind us iron doors were slamming in the sky with metallic bangs as through opening and shutting in a tempest. The sharp crack of busy on both sides, and once I stood in a doep pool, with the water up to my knees, listening to what sounded like the tap-taptap of invisible blacksmiths playing a tatoo on an apvil.

TELL TALE SPLASHES.

It was one of our machine guns, at work few yards away from my head, which I ducked below the trench parapet. Splodge! went the officer in front of me with a yell of laughing diamay. The water was well above his top-boote. Sploch I went another man shead, recovering from a remarkable 1,300, and on the night the receiving side-rio, in the over mud and clinging desperately to some bunches of yarrow growing up the sid- of the trench. Squelchi-PARIS AND EUR PE. MAYENCE FREEE went a youn gentleman whose puttees and of them, and had paid E7 to professional maggy any longer. " & Co., 18 Bue de la Grange, Batelie breeches had lost the'r glory and were but | rat-catchers .- The Registrar: You didn't

"Claver fellows 1," wait the officer as the trench in order to avoid a specially got into the window, and people passing deep water hole, and with sucked heads the shop on Sundays used to call at his and hodres bent double (the Germans were house to inform him of it. He had only 200 yards on the other side of the SAN FRANCISCO and American Ports, primpet) walked on dry earth for at least ton paces. The officer's laughter was loud at the corner of the next traverse when there was an abrupt descent into a verit-

able slough of despond. "And L hope they can swim ! said voice from a dug-rat as the officers pased. They were fairly dry in the se source burrews, the mee who had been working all night under their plateon commanders and were now slooping and resting in their trench-dwellings. As I paddled on glanded at those mon lying on straw, which gave out a moist smell mixed with the purpost vapours of chloride of lime.

SLEEP, AND RENTIMBRY, That were not I torested in the German gons, which were giving their dally dose of . bate to a willage behind the lines (When we went back to it we found that THER ALEXANDE COMPR. THE BALKANS AND THE

WAR.

for a considerable time past the eyes Balkans and that speculation has been rife as to which of the various States comprehended in that term would throw in their lot with the Entente Powers and which with the Teutons. The attitude of Service and Montenegro was certain, that of Greece almost as certain. What Roumania still as uncertain as it was since the time when the operations against Turkey rendered it practically imperative that the Balkan League should be re-established "if the land | Mrs. Villion Smyth, & Mr. H. I. Jones. operations against Turkey were not macy of the Allies had achieved one (b) Intermezzo {"In a Red } great success over Germany in the intervention of Italy, but it has so far i failed to bring the old members of the Balkan League into line on the side of their natural allies. It has passed through three distinct phases.

At the beginning of the war the motives of Germany in bringing Turkey into the war do not seem to have been justly appreciated. Turkish intervention was thought of mainly as the source of danger to Egypt and to the Russian possessions in Asia. It was much more that. The aim of the German military party was to establish a great "Middle Empire" -or federation of empires, with Germany as the predominant partner -from Antwerp to the Persian Guif. It was necessary to Germany, if that ambition was to be realised, that Turkey should be brought into the war; to the Allies equally necessary, slow to not on the fact that Bulgaria held the key of the situation, and that given below :without her nothing could be accomplished by diplomacy. It made over Liquois, ... \$121,149.54 \$114,316.23 tures to Bulgaria, but it did not offer Duties. Chinese enough to produce the desired effect; perhaps ut that time it was not in a position to offer enough, for the price of Bulgaria's intervention would have to be paid by the other Balkan States, though the Powers, of course, could give them ample compensation in the event of victory. The second phase began with the Russian advance on the Carpathians at the beginning of the year, which made Hungary the centre of gravity for the time being of the war. It was in the hope of

assisting this movement that we began

the attack on the Dardanelles. It is

believed that the Allies in February

last had made up their minds to offer

Bulgaria what was believed would

be enough, but apparently they made.

great expeditionary force, which though it has done very fine work,

hus not yet succeeded in accomplishing decisive results.

The offers to Bulgaria so long delayed were at lest made and, as a result, it was confidently anticipated weeks ago that they would adopt an attitude of "armed neutrality" on behalf of the Eutente Powers. The latest news to band, however, seems to make this by no means certain and it is clear that the Bulgaria-Servian nincour has been insuperable. Bulgurin has announced that she is about to mobilise, but simultaneously with that announcement comes the statement that she has entered into what she hopes will prove an advantageous stroke of business for herself, namely, a convention with Turkey by which she secures important railway concessions at a point at which Bulgaria has long coveted a footing. Roumania still remains as the sphinx, and all that can be said of her is that she is from his room at Lycemun Barracks. determined to preserve her neutrality leather case containing six gilt star bades: us strongly against the Teutons and the Turks as against the Entente Allies. The Balkan situation is at present, as it ever was, full of perplexities and time alone and the course of events will really determine what this hotbed of rancour known | a d y. as the Balkan States are likely to'do.

THE SHANGHAI TRAGEDY

MACFARLANE BENTENCED TO DEATH.

(From Our Own Correspondent.)

SHANGHAL Sept. 24. The two days: trial of Macfarlane ended to-day in accused being sentenced to death for the murder his wife on August 16.

The trial took place at the British Supreme Court, before Sir Haviland

THE DAMAGE TO THE "ST. ALBANS,"

PILOT FOUND GUILTY OF AN ERROR OF JUDGMENT.

The President of the Marice Court, Commander Beckwith, R.N. at noon today read the finding of the Court into the enquiry into the cause of the damage austained by the Australian steamer St. The Christian Science lecture which Albans, in collision with the Standard Oil Company's steam oil boat Unc.s. The Uncas on September 16, on her journey down the harbour from the Standard Oil Company's wharves at Lai Chi Rok and outward bound, crashed into the St. Albana

while she was moored at her buoy. The Court was composed as under :--Commander Beckwith, R.N., president A Chinese water at the Hoogkong Acting Commander S. Gibson, R.N., H. M. Club, named Mat Ying, died suddonly on S. Tamar; F. Mooney, Captain s.s. Taisang, P. W. Grierson, Captain s.s. Taiyuan; C. Lindberg, Captain s.s. Fatshan. Mr H. J. Gedge, of Mesers Johnston. Stokes and Master, represented Mesers Gibb, Livingston & Co., agents for the St and Grist, represented the captain of the spirit of the officers was splendid s.a. Uncas and Mr Craw, of Mesars Hastings

and Hastings, represented Captain Going The Court's finding was : -We find that the s.s. Uncas, Oficial No. 135,326, of which Edward Urump, Official No. certificate, extra master, 007,861, left Lai Chi Kok at 4.30 p.m. on Sept. 16 with Mr. Going, pilot, on board and that all want well until about 750 yards from the s.s. St. Albans, which was lying at her buoy loading at this moment. The speed of the s.s. Uncas would be some nine knots "Haiphong," has been sent to the public and her lielm was ported slightly so as to mortuary: The body was recovered by svoid two junks passing from starboard to port across her bow. The time would be about 5.12 p.m. The speed of thaship was reduced as necessary. The pilot then gave an order to starboard the heim, suas to get ing that the ship did not answer the helm, at once gave the order to put the helm hard a port, and then hard a starboard, The ship would then be about 200 yards The augines were then stopped but the ship was swinging towards the St. Albans. The amount of sugar in tons imported The pilot then ordered full speed sate:n strong entury wind on the port how

> steru of the St. Albans which he had plenty of room to do. We therefore hold the pilot to be guilty the collision, but, taking into consideration port, we consider that a severe reprimand meets the case, and we strongly recomme id him in future to use the central fairway which is specially set apart for the passage of ocean ships ; and we hold the master to be exenerated from all blame and we consider that his action at the time that a collision was seen to be ineritable in going full speed ahead, was good seamanship and misimised the effect of the blow, The costs of the enquiry will be defrayed by the Government.

the helm hard a'port and his engines

### MR. WILLIAM LE QUEUX' LATEST WORK.

Mr. William le Queux is following up to suppress-by a new and equally outspoken criticism called . The Devil's Spawn; How Italy Will Defeat Thom," which Messrs. Stanley Paul and Co. have in the press. Like its predecessor, German Spics in England," of which over one hundred thousand copies have been sold, the new book contains chapters upon Great Britain's admitted mistakes, and also includes a critical view, of curselves as seen through the French and Italian spectaclos. Mr. le Queux, who is persona grate at the Italian Italian Cabinot Ministers and come of even to secure their publication through the Press Bureau. the most important men bow in the Southern sphere of operations informs tion hitherto unpublished.

### THE LATE GENERAL NOGI.

The name of the late General Count Nogi's family will, it is reported be removed after September 18 from the list of peers registered in the Imperial Japanese Household Department. The authori ties state that as the late General did not wish anyone to succeed to his title after his death, the Noci family had so far been only nominally on the peerage list. According to law, however, the heir of a poor forfeits the right of inheritance when he fails to register his name within ment of such a right. On September 13. this specified period will expire, and from that date the Nogi family will be to garded as entited in name and in fee has the late Count wished.

# THE PROGRESS OF THE WAR.

MOBILISATION BULGARIA'S ORDER AFFECTS QUARTER OF MILLION INFANTRY.

SERBIA READY TO MEET ANY ATTACK IN ANY QUARTER.

> THE BUDGET AND THE TEA TRADE

> > (Reuter's Service o the China Mail.)

BULGARIA'S ARMY.

London, Sept. 23. A Bulgarian reserve officer, interviewed by Reuter before departing in response to the mobilisation summons, said that the general mobilisation applied to a quarter of a million of the infantry; the army stores had Albans; Mr Wilkinson, of Messrs Wilkinson been amply replenished and the artillery increased by one-third. The

### SERBIA READY.

London, Sept. 23.

threatened with a new, Gorman danger is That Serbia is evidenced in a semi-official statement from Nish denying the reportthat Germany has notified Serbia of the impending attack and advising her not to oppose it. The statement concludes: "We are ready

valiantly to meet any attack from any quarter communique issued at Nish mentions that the enemy for four hours on Sunday from the right at different points heavily bombarded positions on the Danube and the Save with heavy howitzers and field

### BUDGET TAXES AND THE EFFECT ON THE THA TRADE.

London, Sept. 23.

The prices of tobacco and other commodities affected by the Budget: we already been raised, but the retailers of tea have agreed to clear their stocks at the old figures.

The Times says that City circles opine that at least at first the whole of the increased tax will be passed on to the consumer either by increase of price or by a reduction in quality.

It is also suggested that one result will be to compel consumers amount received from this source in 1913, | saw the ship swinging to starboard with a to check their present wasteful methods, in the using of tea and that the consumption may decline; but in view of the large crops which are being harvested it is unlikely that the market will remain on the easy side, and this should tend to counteract the higher tax. The producing Companies have been doing exceedingly well and can afford to regard tho future with equanimity.

## DARDANELLES OPERATIONS.

SPECIAL ORDER BY GENERAL SIR IAN HAMILTON.

LONDON, Sept. 22. General Sir Ian Hamilton in a special Order, dated September 7th, ingratulating the troops under General Birdwood at the battle of Sari

"The gallant capture of an almost impregnable lane of pine trenches by the Australians, and the gallant defence against repeated counterattacks, are exploits which will live in history. The troops under General: Godley, particularly the New Zealanders and Australians, were called on to carry out one of the most difficult military operations over attempted. A dush by night, a murch and assault by several columns in intricate rigumtainous country strongly entremeded and held by a numerous and determined enemy, their brilliant conduct and success won them a reputa-

tion of which any country must be proud. To the Australians and New Zealanders and the troops associated his warning " Britain's Deadly Peril " with them Mooris, Sighs and Gurkhas and new troops from the Old which the War Office recently attempted Country- General Sir Ian Hamilton tenders his appreciation and thanks.

The Australian High Commissioner announces that the casualties

THE AUSTRALIAN CASUALTIES.

LONDON, Sept. 22.

the Durdinelles amount to 19,183 of whom 4,604 were killed.

THE OPERATIONS IN MESOPOTAMIA.

The "Times" Strong Comment." London, Sept. 22.

Court, recounts many conversations he the splendid achievement of the force in Mesopotamia are officially has had with King Victor, the Dake of issued in Impdon, says, that the desputch a published in the Cosette of Abruzzi, Baron Soumno, and various India are not reproduced in the London lidzerte, and nothing is done

The Times declares that the thousands of Englishmen engaged bitterly resent the slight placed upon them. The doctring that compaigns controlled by the Raj are no concern of the British people is something now and violates the statues controlling the relation of Great Britain to India.

### STATEMENTS IN PARLIAMENT

LONDON, Sept. 22. In the House of Commons, Sir John Rees and the campuign in Mesopotemia had been the most uniformly successful yet carried out by our armies, yet it was one about which it was most difficult to obtain information. The enormous difficulties under which the troops and the Indian marines advanced in the Persian Gulf and up the Tigris should be apprehiated and known, so that the country would rejoice in the gallant, exploits of the troops who had not only enguged Turks and Araba, but had endured the most postilential climate experienced and difficulties of every description.

Mr. H. J. Tonnant, Hinder Secretary for War, said the Mesopoinmian operations really concerned the India Office: but indemuch as the operations were of considerable importance for which the whole House and the country generally were most grateful, he would bring to Mr. Chamberlain's notice the auggestions which had been made, in the hope that fuller details would be published of the gullent we plots of the force

# TELEGRAPH.

### THE BULGARIAN SITUATION.

GENERAL MOBILISATION, ORDER.

Armed Nautrality,

London, Sept. 23. The Bulgarian Minister says that the mobilisation means that Bulgaria will maintain armed neutrality.

Asked if mobilisation meant that Bulgaris would join the Central Powers, the Minister replied: "Certainly not, Bulgaria is now taking the same precautions that Holland and Switzerland have taken."

BULGARIANS ORDERED HOME.

LONDON, Sept. 22: . A Berlin telegram, according to an Amsterdam message, states that the Bulgarian Embassy announces that all Bulgarians must immediately leave

for Bulgaria ria Vienna and Roumania, A telegram from Sofia states that a Bulgarian Commission has left to arrange the transfer of territory under the Turco-Bulgarian Railway Agreement. The territory will be handed ever in a fortnight.

A telegram from Vienna states that the Bulgarian Premier has declared that it is impossible for Bulgaria to remain unmoved in the presence of the quickly moving situation.

The news from Sofia, says a telegram from Athons, has created a deep impression in official and diplomatic circles. Great secrecy is observed regarding the details. It has only transpired that Bulgaria has mobilised 100,000 men, and several cavalry regiments have left Sofia for an unknown

A CONVENTION SIGNED BY TURKEY.

London, Sept. 23. The Times' Sona correspondent, writing on the 20th inst, stated that the Premier had informed supporters that a convention had been signed by Turkey for the future maintenance of armed neutrality of Bulgaria.

### ON THE EASTERN FRONT.

RUSSIANS CAPTURE 70,000 PRISONERS AND 70 BIG GUNS.

It is officially announced in Petrograd that General Ivanoff in the of open towns and civilian populations in France and England, a squadron of a last few days of August and the beginning days of September, besides aeroplanes this morning bombarded Stauttgart, and dropped thrity shells on capturing 70,000 prisoners, took 70 guns and 200 machine-guns on a the Royal Palace and station. southern' front extending over 130 miles.

THE RUSSIAN STAND ON VILNA RIVER.

LONDON, Sept. 22.

Experts at Potrograd point out that the Russian stand on the Vilna River is most important in securing the retreat from Vilna, though it is still premature to say that the Russians are out of the wood, in view of the enemy's uninterrupted efforts to cut the communications. The main purpose of the enemy's movements is believed to be to cut diagonally across the Russian line of retreat, repeating on a larger scale the Masurian Lakes coup.

The advent of tieneral Russky on the northern front has slowed the Charman advance on Dvina to a costly series of attacks on successive prejudies, and a serious advance of the Germans on Petrograd this season is regarded as utterly out of the question. At present there is every sign of an early winter, which peasants predict will be long and severe.

### 'ANOTHER FINE SUCCESS

London, Sept. 22. A Petrograd communique announces that the Russians have had another time success in the southern theatre, capturing a forest in the lower half of the Pripet region on the River Stry, taking prisoners and machine-guns.

The Russians dislodged the Austrians and Germans in the region of injured ship is proceeding up the Thames. Dubno, capturing an important bridge-head, and further eastward the Russians won a battle northward and westward of Kremetz, taking a large number of prisoners.

T. 680087, "Sept "23." A Petrograd communique shows that the Russians have successfully turned against the Germans on the whole front from Right to the east of Lida, capturing a number of villages and the town of Smorgon, which is east of Vilna, hundreds of prisoners and much munitions in a series of desperate buyonet encounters. These actions are described as incessunt and most fierce. West of Dvinsk the Germans lost, 354 prisoners and nine Maxims before they fled in disorder towards the river from a Russian bayonet charge, which ended in the capture of Smorgon.

London, Sept. 22. From the end of August, says a Petrograd telegram, we have teken in Eastern Russia more than 70,000 prisoners.

70,000 PRISONERS IN THREE WEEKS.

WITH THE SERBS.

A Syrbian communique states that the enemy on Sunday night re-opened artillery fire; accompanied by the fire of infantry and quickfirers, with no result. Our artillery occasionally replied.

BOMBARDMENTS BY AIRSHIPS

LONDON, Sept. 22. There have been intense outbursts of artillery at many points along the front, including Belgium, says a telegrum from Paris. Allied aviators bombarded the enemy's cantonments at Middlekerke

and also a tmin between Bruges and Thorout. Eight aeroplanes, effectively bombarded the railway station at Conflans between Verdun and Meiz."

### YIOLENT BOMBARDMENTS

London, Sept. 23. A Paris communique states that artillery activity has continued indiminished along the whole front. A violent bombardment north of the Aisne compelled the enemy to evacuate a fortified post which we occupied. An enemy patrol which attempted to pierce our lines in Cham pagne was completely destroyed.

### BOLD MOUNTAIN OPERATIONS.

A Rome communique states that bold and well co-ordinated mountain operations were earried out with the object of dislodging small detachments which entered the valleys of Tofane and Cristello, and the mountain groups north-west of Cortina Dampezzo, which were disturbing the Italian occupation. The roughness of the ground, which was broken, and the numerous ravines. it voured a tanacious resistance, but small Italian columns, working methodically and harmoniously, gradually ejected the enemy and drove him down into the valleys beneath. The Italian artiflery in the Plezzo Basin resumed the bombardment of Fort Hermann, of which only the casement remains standing, though the fort is still firing an occasional shot.

Unitimously Approved.

The Budget is unanimonaly approved by the proper some styling in "great" and "bod. "tides as Thomas Short Marright-forward." The univ surprise expressed in anthe commentively, whathambane of new marrion, but the Chancellor is congratulated on the lust of raising over £100,000,000 in a single year.

# BY TELEGRAPH.

TEUTONIC INTRIQUES IN AMERICA.

German Opinion Of Americans.

LONDON, Sept. 23. The Covernment has issued a White Paper containing the statements which Herr Dumba and Captuin von Papen sent to Europe by the American journalist Archibald. Those revealing the plot to foment strikes in the American munitions works I we already been published in the newspapers. The others confirm the New ork World's disclosures that the plot was based on documents stolen from Dr. Albert, the Financial Adviser of the German Embassay, in an elevated railway: It is shown that Count Bernstorff herealter wrote lengthily to Mr. Lansing, enging, - "It is inevitable that the holder of such a position should receive the most unbalanced and irresponsible proposals. The majority of Dr. Albert's documents were of such a kind that our only mistake was in preserving them instead of throwing them into the wastepaper-basket." Count Bernstorff then argued that Germany was justfied in buying up the munitions of the United States as not only a humans measure but as being beneficial to the United States, to which Germany would be glad to sell them back.

The letter of Captain von Papen to his wife, however, puts a different complexion on Count Bernstorff's bluster. This says -"We have great need of being bucked up here. Unfortunately they stole a fat portfolio from our good Dr. Albert, of which the principal contents have been published, including very important things. My report, for instance, for the buying up of liquid chlorine phenol, Wrights seroplane patent. How splendid on the Eastern front. I often tell these idiotic Yankees that they had better hold

& Equally frank is the comment on Americans contained in a letter of Herr Dumbs to the Austrian Foreign Office, when he remarks that the resumption of the question of the embargo on arms is " useless and even harmful, having regard to the self-willed temper of the President." Herr Dumbu, in the same letter, says that the real reason of the President's discourage. ment of the emburgo agitation is the conviction that the United States, in a serious crisis, must rely on neutrals for war material, and says that President Wilson, at no price, will allow this source to dry up.

STUTTGART BOMBARDED BY AVIATORS

Thirty Shells Dropped.

LONDON, Sept. 23.

A Paris communique states that as a reprisal for the German bombardments

The aeroplanes were cannonaded at different points on their long journey but returned to their base uninjured.

### THE GERMAN VERSION.

An official German account of the Stuttgart raid says that enemy airmen, with German marks on their machines, attacked Stuttgart at 8.15 in the morning and dropped several bombs on the town, killing four persons and wounding a number of soldiers, and civilians. The damage to property was insignificant. The airmen were cannonaded and disappeared southwards at 8.30.

The military authorities, half an hour before the raid, were notified of the

approach of a German airman, hence the population were not warned in time. The airman arrived at 9.30; and was cannonaded until he was definitely recognised as a German. He landed unburt

THE "GOEBEN" RE-APPEARS

"LONDON, Sept. 23. The Gusten has re-appeared, a Petrograd communique mentioning that Russian destroyers exchanged shots with the Gorben near the Bosphorous.

DUTCH LINER STRIKES A MINE.

The Dutch liner Koningennema bound from Java to Holland struck a mine. Her 250 passengers were transferred to the liner Batavier IV. The

### THE POLITICAL SITUATION IN RUSSIA

The Zenstvo and Municipalties' Congresses at Moscow, says a telegram from Petrograd, are deliberating as to a form of resolution with reference to the "political situation. The question of requesting the Tear to receive a deputation from them will also be decided. Prince Eugene Trubetzkoi declared that the adoption of a resolution

without further steps would be a mere blow in the air, but, however, he told the Congresses that the representations to be made would be made in all loyalty, as the German army was becoming exhausted and Germany's only hope was a Russian revolution.

A PORTUGUESE AND HIS

If he could go and get a loan like that and not pay his debts: there must be something wrong with him, was the observation of Mr. M. J. D Stephens to the Puisne Judge this morning when appearing on behalf of Messrs A. S. Watson and Co., Ltd., for the recovery of 824 from J. M.

The defendant said he consented to judgment and offered 85 a month. He was not married but had a sick mother to support. His wages were \$100 a mouth and onethird of that was absorbed in rent.

His Lordship asked Mr. Stephens if he would accept the offer. Mr. Stephens doswered that he not quite know what to do shout it." noticed in the list that the same man was efendant in an action for the recover \$110 and judging by the name of the plain-

tiff, he thought the claim was the result of a money-lending transaction. Mr Stephens did not know anything about the moneylending claim but he had to take notice of His Lordship. It is a new case.

Mr Stephens observed that he did not know that, but thought it was an old one. "I should like to know," went on M Stephens, how it is the defendant can o and take up a loan and not pay his debts? His Lordship : Probably his answer will be that he was hard up (bughter). Mr Stephens.-He goes outside and

gets a loan and gets into debt with principal. radesmon and he does not pig. It looks to me that he is carrying on in a way that full of joy. L ave Prade behind? I will His Lordship : Your people gave him credit ; probaby others did not and that is

why he took up a loan. Mr. Etephens: It is o very small sum and it has been owin scome time Defendant, in answer to his Lordania gate details of his time fal postin and

KILLED: 50 INJURED.

IN NEW YORK

Landon, Sept. 23. A telegram from New York states that seven were killed and fifty injured by a dynamite explosion during the excavation of a new underground tube. A tramear in which were many podestrians was cogulfed. The streets were crowded and only the fact that the sidewalks held firm prevented a greater catustrople, Firemen with ropes rescued the injured.

### FACTS ABOUT OPIUM.

Good Work by the Preventire Staff.

The Superintendent of Imports and xports, Mr. R. O. Hutchison, in his amual report, says the gross revenue derived from the sale of opium from March 1st, 1914, to December 31st, 1914, was \$3,504,284. From this must be deducted the cost of mir opins, and administrative charges, about \$900,000. The import of certified opium from India ceased in January, 1914, and the made is now confined to the gradual absorption by China of the stocks held in Shanghai and Hongkong. There have, been some movements of oplum between Hengkong and Shanghai but these have been due to temporary conditions and do not affect the general position. The price of certified opium remained more or less steady throughout the year. A certain amount of Persian opium passed through the Colony, mostly for Formosa. A considerable quantity of the stock of Persian opium which has been lying in the Colony was shipped to London. Uncertified Indian opium was imported into the Colony for the use of the Government and also for export to Micao for the use of the Macuo Opium Farmer.

Very good work was done by the preventive staff during the year. The enormous difference between the price of certified Indian opium and, that of uncertified and Persian opium have encouraged attempts to smuggle the 'drug through the Colony into China on a large scule. A number of large seiznres were made during the year, chiefly through the energy of Mr. J. C. Wildin. In spite of these, however, the truffic appears to be on the increase. With the enormous difference in price at present ruling and the strong demand which continues to come from China, it is only possible to deal with this truffle satisfactorily by controlling the supply of opium at its I source. There is still a number of centres from which opium can be purchased without difficulty. Apart from opium very useful work has been done by the preventive staff under the Liquors Ordinance, the Arms and Ammunition Ordinance and the Post Office Ordinance. Mention should be unade of the excellent work done by Mr. F. P. da Silva and ther restriction cirrical staff of the line ports and Exports Office during the earlier stages of the Monopoly. A considerable amount of extra work fell on the stuff, which was always cheerfully under-
